

TECHMOUNT

TM-IFP Flat Panel Floor Stand

- Heavy duty floor mount for interactive flat-panels
- Motorised 500mm up/down travel
- Fix to floor or add optional wheels.

Robust and simple, the Techmount for flat-panels fits any flat-panel LCD or LED screen which uses VESA mounting points up to 600 x 400mm. In standard guise it fixes to the floor but an optional portable conversion kit is available. 800 x 600mm optional ears are included for larger VESA screens.

► SWL 115K (Floor Fixed) (70KG Portable)

Interactive and non-interactive flat-panels both use the same VESA mounting point system, but interactive flat panels are much heavier. The linear-drive motor can lift up to 115kg and is smooth and quiet.

► Cable Retraction

The TM-IFP features a dynamic cable management system which uses retracting reels to help avoid the power and input cables dropping into sight when the flat-panel is lowered.

► Remote Control

A simple cable remote control fits to the rear of the flat panel out of reach of little fingers.

► Wall Anchors

A stand-off bracket fixes the column to the wall and allows dado rail to pass behind the assembly.

► Shared Power

An integrated power output means the flat-panel and mount can share a single power cable.

► Rear Cubby

Accommodation for cable-tying power distribution block or media player at rear.

► Hang and lock

With the VESA plates attached to the flat-panel the screen assembly simply lowers on to the upper column and bolts lock it in place.

► Cable Management

An aluminium cable trunking strip on the lower part of the column hides cables.

SPECIFICATIONS

PRODUCT DIMENSIONS:

Without wheels: 1680 x 635 x 210mm
(height x width x depth in lowest position)
With wheels: 1850 x 950 x 660mm
(height x width x depth in lowest position)

PACKAGED DIMENSIONS:

TM-IFP: 1210 x 300 x 190mm
TM-IFP WHEELS: 1000 x 250 x 145mm
TM-IFP SHELF: TBC

PRODUCT WEIGHT:

TM-IFP: 43kg
TM-IFP WHEELS: 13kg
TM-IFP SHELF: TBC

PACKAGED WEIGHT:

TM-IFP: 46kg
TM-IFP WHEELS: 15kg

SAFE WORKING LOAD:

150kg

CONSTRUCTION MATERIAL:

Aluminium and Steel

COLOUR:

Black and Aluminium

VESA SIZES:

600 x 400mm
400 x 200mm
400 x 400mm
300 x 300mm
200 x 200mm
100 x 100mm

TECHNICAL DETAILS:

Motor Type: Linear-drive
Rated Cycles: 12000
Speed: 15mm/s
Pushing Force: 2000N
Pulling Force: 1800N
Travel Distance: 500mm

ACCESSORIES INCLUDED:

1 x EU IEC Power cable 1.8m long
1 x UK IEC Power cable 1.8m long
1 x AU IEC Power cable 1.8m long
1 x Wall bracket

POWER SUPPLY:

240V 4.1A Internal Power Supply

WARRANTY:

3yrs onsite for UK

COMPLIANCES:

RoHS, WEEE, and CE compliant
